The HASCO **185P-185P-RA** is a 1.85mm Male to 1.85mm Male in-series adapter from HASCO. This in-series 1.85mm to 1.85mm right angle coax adapter will operate up to 67 GHz. Adapters that have a male to female or plug to jack configuration are known as “connector savers.” Typically, a low loss or low VSWR male to female adapter is placed on more expensive component connectors to prevent damage.

HASCO stocks an extensive selection of RF and Microwave between-series, in-series, right angle and low PIM adapters.
