The HASCO SMAJ-SMAJ-FF-BH is a SMA female to SMA female bulkhead in-series adapter. This in-series SMA coax adapter will operate up to 18 GHz. Adapters that have a male to female or plug to jack configuration are known as “connector savers.” Typically, a low loss or low VSWR male to female adapter is placed on more expensive component connectors to prevent damage. Bulkhead adapters and right angle adapters are also available from HASCO Components.
