HLL283R-S1-S2-36

SMA Male to SMA FemaleTest Cable using LL283 Low Loss Ruggedized Flexible Cable, Excellent Phase and Amplitude Stability vs. Flexure, DC- 26.5 GHz, 36 Inches

The HASCO **HLL283R Series Cable** is a low loss LL283 cable that operates from DC to 26.5 GHz. This cable series is constructed with SMA Male to SMA Female connectors. These cables are internally ruggedized with multi-layer copper spiral and braided armor. They offer excellent phase and amplitude stability vs. flexure. The HLL283R Series cables offer 1.30:1 max VSWR.

The HLL283R-S1-S2-36 is RoHS Compliant.

HASCO offers many types and configurations of RF and microwave cable assemblies and can support most requirements, such as flexible, conformable, semi-rigid, VGA, low-loss, phase stable, armored, jacketed and more; all assembled with the highest quality RF connectors.
