

Differential Probe Series

True 100Ω Differential Design

110 GHz FPP Probes

0.6mm, 0.8mm Pin Pitches Available

Features

- 100Ω true odd mode differential
- No ground pins
- Multiple probe pin pitches (0.6mm, 0.8mm, 1.0mm)
- Straight 1-hole mounting
- Multiple pin lengths available

HASCO|RF is an Authorized Distribution Partner for Signal Microwave GigaProbes® Differential Probe Solutions.

These probes are designed to support the industry's demand for higher data rates over differential traces. They are used to characterize transmission lines and devices. A newly patented differential probe design was developed to replace internal cable wires with a printed circuit board. It has a high bandwidth differential transmission line that can be used with test equipment to measure differential S-parameters. There are also de-embedding methods and boards available that support the probes.

Mount Options

Part Number Builder

Part Number	Frequency	Pin Pitch	Pin Material
FPP110-0.80-001	110 GHz	0.80mm	Stainless Steel
FPP110-0.80-002	110 GHz	0.80mm	BeCu
FPP110-0.60-001	110 GHz	0.60mm	Stainless Steel
FPP110-0.60-002	110 GHz	0.60mm	BeCu
