## TSCA STATEMENT

As required under the Toxic Substances Control Act (TSCA)<sup>1</sup>, as amended by the Frank R. Lautenberg Chemical Safety for the 21st Century Act, the Environmental Protection Agency (EPA) issued five (5) final rules on January 6, 2021 to reduce exposures to certain chemicals that are persistent, bioaccumulative and toxic (PBT)<sup>2</sup> (the "Rules"). These chemicals build up in the environment over time and may result in potential risk to exposed populations, including the general population, consumers and commercial users, and susceptible subpopulations (such as workers, subsistence fishers, tribes and children).

The Rules limit or prohibit the manufacture (including import), processing, and/or distribution in commerce (including within articles) of the following PBT chemicals:

- Decabromodiphenyl ether (DecaBDE)
- Phenol, Isopropylated Phosphate 3:1 (PIP 3:1)
- 2, 4, 6-tris(tert-butyl)phenol (2, 4, 6-TTBP)
- Hexachlorobutadiene (HCBD)]
- Pentachlorothiophenol (PCTP)

Southwest Microwave, Inc. –Microwave Products Division certifies that it is compliant with the requirements of TSCA regarding the five (5) PBT chemicals listed above and that none of the above-mentioned chemicals are intentionally used or added to our products. Southwest Microwave, Inc. –Microwave Products Division does not chemically analyze any materials for specific content and relies on the material supplier for declarations, certifications, notifications and/or available MSDS regarding the materials within the Articles described herein.

As the TSCA regulations continue to evolve, SMI-MPD will monitor any change and take appropriate action as required.

For Southwest Microwave's accessories or any other questions regarding our compliance to TSCA, or other standards, please contact us.

A handwritten signature in black ink, appearing to read 'H. Stuehrmann', with a long horizontal line extending to the right.
